

DRIVING SAFE

Mt. Lebanon is a safe place but our streets can be very busy. We continue to work to educate pedestrians, drivers and cyclists on ways to co-exist peacefully and safely on our avenues.

- **Never text** while driving.
- Be prepared to **stop at crosswalks**.
- Don't drive if you're exhausted.
- **Be prepared** for other drivers to do the wrong thing.
- **Wear your seat belt**. It's the law.
- Only make calls in an emergency.
- **Allow extra time** in bad weather or during road construction season.
- **Keep music at a reasonable level** so you are not distracted.
- Mind the **speed limit**.
- When stopping at crosswalks, **leave enough room** between you and the pedestrian so that cars around you can see the pedestrian.
- **Do not make sudden movements**, especially in congested areas.
- **Be alert** for deer, especially during dusk and dawn and during active seasons, such as the rut.
- **Don't assume** anyone else can see you.
- Do not drink alcohol or use judgement-altering drugs while driving.
- Do not try to beat a red light.
- **Always yield** to pedestrians.
- **Keep a safe distance** behind the car ahead of you.
- Mind all work and school zones.
- **Give bikes four feet of clearance** space before passing.
