Mt. Lebanon Recreation Department Plan of Action for COVID-19 Related Illness

- Should a program participant, employee, instructor, visitor or volunteer display COVID-19 symptoms during a recreation department program, he/she will be immediately removed from the group, masked if not already, and isolated. If the person who is ill is a minor, the parent or guardian will be notified immediately, and they will need to pick up their child as soon as possible. Testing for COVID-19 will be recommended for the person who is ill.
- The COVID-19 point person for the Recreation Department will contact the Allegheny County Health Department, get their determination about isolation or quarantine needs, and comply with those recommendations.
- The ill person who demonstrates COVID-19 symptoms will be required to have a release from their health provider and the Allegheny County Health Department before they can return to activities.
- Employees or instructors who are uncomfortable or unable to return will be directed to the Human Resources Manager.
- A Municipal communication to the community will occur should a recreation department program participant, employee, instructor, visitor or volunteer be confirmed with COVID-19, and any subsequent adjustments to the Health and Safety Plan would be included in that communication.
- Areas used by a sick person will be closed and not used until they have been cleaned and disinfected (for outdoor areas, this includes surfaces or shared objects in the area, if applicable). We will wait at least 24 hours before cleaning and disinfecting. If 24 hours is not feasible, we will wait as long as possible.
- Those who have had [close contact](#) with a person diagnosed with COVID-19 will be advised to stay home and self-monitor for symptoms, and to follow CDC guidance if symptoms develop.

COVID Point of Contact- Tim Ishman is the recreation staff person responsible for responding to COVID-19 concerns. You may contact him at: 412-343-4533 or tishman@mtlebanon.org.
